

## IADC Seminar on Dredging and Land Reclamation

In the context of the CIP Secretariat's capacity Building Program, we are proud to offer the possibility of holding a Seminar on Dredging in collaboration with the International Association of Dredging Companies (IADC). Since 1993 IADC, often in cooperation with local universities and/or other associations, has provided this seminar by combining classes and workshops with a visit to a dredging project. More than 1,200 participants agree that this is a unique opportunity to obtain valuable practical experience. This comprehensive seminar is taught by professionals from leading dredging companies.

### Audience:

- Newcomers in the field of dredging to higher-level consultants, advisors at port authorities and offshore projects.

**Contents:** The contents of the seminar can differ depending on the demand of each country's needs, however the seminar can offer topics such as:

- Overview of the dredging market and the development of new ports and maintenance of existing ports;
- Project phasing (identification, investigation, feasibility studies, design, construction, and maintenance);
- Descriptions of types of dredging equipment and boundary conditions for their use;
- State-of-the art dredging and reclamation techniques including environmental measures;
- Site and soil investigation, designing and estimating from the contractor's view,
- Costing of projects and types of contracts such as charter, unit rates, lump sum, risk-sharing agreements, and early contractor involvement; and
- Survey: progress measurement of dredging and reclamation works.
- Preparation of a tender and cost calculation for a dredging projects.

**For more information about the content visit:** [https://www.iadc-dredging.com/en/263/seminars,-presentations,-webinars/seminar-on-dredging-and-reclamation-\(singapore\)/](https://www.iadc-dredging.com/en/263/seminars,-presentations,-webinars/seminar-on-dredging-and-reclamation-(singapore)/)

**Language and duration:** The Seminar will be taught in English and its duration is 4 or 5 days if the general and practical content is included, however it can be tailor made subject to the needs of the participants.

**Cost:** Thanks to IADC's generosity and disposition to assist with the development of this sector, the CIP Secretariat is able to offer the Seminar on Dredging and Land Reclamation to our Member States at no cost save for airfare, accommodation & board and experts fee.

Activities outside the classroom are equally important, therefore an on-site visit to a nearby dredging project might be offered during the seminar. Besides acquiring awareness and knowledge about dredging, network opportunities will be given.
