

III Hemispheric Seminar on Port Legislation: Efficient Legislation as a Foundation for Competitiveness

July 18 -19, 2019 Paradise Beach Hotel, Roatán, Honduras

In a globalized and technologically advanced world, one of the essential requirements to operate efficiently in the maritime-port industry is the ability to properly implement international conventions and standards. Therefore, States must have an adequate legal framework that incorporates the requirements of said agreements into their national legislation, with special emphasis on secure and efficient regulations, the protection of the (marine) environment, as well as technology and innovation.

International Maritime Law Institute of the International Maritime Organization (IMO)

DRAFT AGENDA

Thursday, July 18

Tharsaay, or	is the second of
