PARTICIPANTS

National Port Authorities from
CIP-OAS Member States; CIP
Associate Members; presidents
and executive directors,
experts, specialists and special
guests from the public and
private sectors related to port
sustainability and
environmental protection.

ABOUT

The Conference, organized by the Coordination General for Ports and Merchant Marine of the Secretaría de Marina (SEMAR) of Mexico and the Secretariat of the Inter-American Committee on Ports (CIP) of the Organization of American States (OAS) will provide an international platform for the exchange of best practices and dialogue at the highest governmental and corporate levels. Representatives from National Port Authorities of the Americas, Port CEOs, decision-makers from the private and public sectors, and international organization experts will share their experiences on various aspects of sustainable port management, including specific strategies and actions. Preliminary topics include:

- Main Environmental Challenges of Ports
- Sustainable Transportation Strategies in Ports
- Port Environmental Legislation
- Port Sustainability Practices
- Sustainable Operations and Environmental Certification
- Resilient Port Infrastructure Planning
- Global Sustainability Challenges
- Port Policy on Sustainable Development
- Sustainable Port Operations and Waste
- Environmental Policy for Infrastructure Development (internal and external) of Mexican Ports
