

FEATURING:**Webinar on Port- Maritime Cybersecurity: Protection Against Digital Threats****Date:** Thursday, May 21, 2026**Time:** 12:00 PM – 13:30 PM Washington D.C.

This webinar, organized by the Secretariat of the Inter-American Committee on Ports (CIP) of the Organization of American States (OAS), brings together experts from the World Bank (WB), the International Association of Ports and Harbors (IAPH) and Barbados Port Inc. (BPI), to examine the evolving risk landscape and share practical approaches to strengthening cyber resilience across the sector. Through this session, participants will gain insights into current threats, regulatory developments, and best practices for safeguarding port and maritime systems. This webinar aims to raise awareness, promote collaboration, and support the development of robust cybersecurity strategies to protect ports and maritime operations in an increasingly complex digital environment.
