

Webinar on Disaster Risk Management and Business Continuity

Date: Tuesday, August 17, 2021

Time: 11:00 AM EDT Washington (10:00 AM CDMX)

The Webinar, organized by the Secretariat of the Inter-American Committee on Ports (S/CIP), will address key aspects of disaster risk management and their importance for business continuity in ports. It will include presentations from HudsonTrident and the United States Coast Guard (USCG), sharing their expertise in disaster risk management and offering recommendations on effective implementation. The presentations will be followed by a Q&A session.

The Webinar will also provide an executive project status presentation of the CIP Improved Disaster Risk Management for Ports in the Caribbean Project.
