

FEATURING:

Webinar on Automatization and Digitalization for Port Management

Date: Tuesday, December 6, 2022

Time: 11:00 AM EDT (10:00 AM CST)

The Webinar organized by the Secretariat of the Organization of American States (OAS) Inter-American Committee on Ports (CIP) will provide a platform to ports and terminals in the region to share award-winning automatization and digitalization initiatives for port management. Representatives from APM Terminals Callao, the Port of Itaqui and Santos Port Authority will present on innovative technology projects including digital twin models, integration of systems, among others. In addition, representatives will share the effects the technology had on their operations for their efficient and sustainable growth. The presentations will be followed by a Q&A session.
