

FEATURING:

Webinar on Industry 4.0 and its Advancement in the Port Sector

Date: Thursday, August 10, 2023

Time: 11:00 AM EDT

The Webinar, organized by the Secretariat of the Inter-American Committee on Ports (CIP) of the Organization of American States (OAS) will address the advancement of digitalization and innovative technology in the sector and its impact in port operations. Representatives from Kingston Wharves Limited (KWL) and Transportadora Callao will share the status of the Port Community Systems (PCS) and future developments, as well as other initiatives that boost port digital transformation. Swiss company AELER Technologies will share on the implementation of smart technologies and its benefits to the logistics chain and development of the sector.
